

## Tournament 1000SS with a screw-in trigger

100% stainless steel- designed to be extremely smooth and durable. Ultra sensitive triggering capabilities for the experienced archer who wants and deserves the very best equipment available.

### Technical Specifications

<b>Style:</b>	Caliper
<b>Design:</b>	Patented multi point pivot action, provides quiet, smooth, crisp releases with ultra sensitive capabilities. This design accurately times the jaws for a true center release.
<b>Size:</b>	3/4" wide, 7/16" tall (less safety), 2 9/16" long to strap adjuster.
<b>Weight:</b>	5.2 ounces, shipping weight 7 ounces.
<b>Material:</b>	100% American made stainless steel with all moving parts heat treated for durability.
<b>Tolerances:</b>	All 33 Stainless components are manufactured to exacting standards, with all critical dimensions held to less than .001" (one thousandth of an inch).
<b>Finish:</b>	Glass bead blasted to a satin finish.
<b>Strap:</b>	Commercially produced James Green leather strap with buckle.
<b>Trigger Travel:</b>	Adjustable to less than .001"
<b>Triggering Options:</b>	Trigger, thumb, squeeze, slide down side, back tension. Additional holes for screw in trigger and add-ons.
<b>Safety:</b>	Spring loaded safety button reduces misfires when held down.
<b>Adjustability:</b>	Length adjustable, sensitivity (and trigger travel) adjustable, left and

right hand adjustable.

**Standard Extras:** Longer bent stud, thumb trigger screw, 3/32" and 1/16" hex adjustment wrenches.
